Provo, Utah

Books Plans Discussed at Meeting

by Dorothy O. Res
Summer Universe Writer

Education specialists spent an hour on Brigham Young University campus planning proposed buildings and services for the Ricks College to be located at the Utah Falls.

A 75 committee members present to make recommendations for proposed curriculum planning, academic buildings, housing and feeding service and student athletic facilities and college structures.

Taylor Outlines
Dr. Harvey L. Taylor of the presidency office and at the University of Utah. Addressing the general assembly, Dr. Taylor of Ricks College, Rexburg, Idaho.

Dr. F. Brewster, director of the medical plant at BYU, is a member of the campus planning committee. He explained the plan which has been developed for consideration.

During the final hours of the sessions, chairmen of committees reported back to the assembly on recommendations.

Committee Heads
Among these committees are: John L. Clarke, Sam F. Smith, Hugh C. Bennion, dean of Ricks College; Clinton L. Ricks, chairman of department of business management, BYU; J. Matthews, chairman of department of art, BYU; Ben E. (head of two committees) auxiliary services, BYU; Stuart, director of religious education, Ricks College.

Dr. Herman Tyler, director of a BYU; Herbert H. Frost, in division mathematics; Dr. John Eastmond chairman of department BYU; Lowell L. Lipp, chairman of division of technical and industrial education, BYU; Mark Nichols, director of vocational education, department of education, Utah Lake City.

Dr. Taylor expected to leave on the new campus will be underway before the autumn begins.

Timeline . . .

Monday, June 29—8:45 p.m. Paganini Quartet in the Smith auditorium; 9:15 p.m. Paganini Quartet in the Smith auditorium; 9:30 p.m. Paganini Quartet in the Smith auditorium.

Tuesday, July 1—8:15 Paganini Quartet in the Smith auditorium; 8:30 p.m. Paganini Quartet in the Smith auditorium; 8:45 p.m. Paganini Quartet in the Smith auditorium.

Wednesday, July 2—8:30 p.m. Paganini Quartet in the Smith auditorium; 8:45 p.m. Paganini Quartet in the Smith auditorium; 9:00 p.m. Paganini Quartet in the Smith auditorium.

IS IT OR ISN'T IT?—Two BYU coeds show what can happen if you dress according to what the weather's like when you wake up. Provo days have been fluctuating between a 99-degree heat wave and 60-degree rainstorms. If you dress one way, the weather's sure to change. If you don't believe it—just ask the girls. (Photo by Doug Dill)

Dr. William Fort Says . . .

Reds Plan to Take Over U.S. by 1970

"The Communists plan to take over the United States by 1970," declared Dr. William Fort, president of Deep Springs Junior College in California, in an address to the Utah Workshop on Economic Education at Brigham Young University.

"Unless we do something now to slow them down they will realize this objective," said Dr. Fort in speaking on the dangers of Communist infiltration into American schools and colleges. It was the last regular lecture of the three-week economic workshop for teachers.

Banquets Ends Meet
The 35 members of the workshop and many more alumni

from the six previous economic confabes Friday evening terminated three weeks of work by holding a dinner centered around the theme "Seven Golden Years" in which past workshop members took part on the program.

Dr. Fort Thursday stirred his audience by stating that the Communists have a "creeping, subtle, ruthless program of world conquest in which they plan to conquer the United States in 10 to 15 years, a conservative estimate."

Reds Infiltrate Schools
The junior college president said that infiltrating into American education—faculty, administration and student body of U.S. schools and colleges—was one of Communism's best means for disseminating their propaganda throughout the country.

"Only when each American citizen is fully aware of the objectives and techniques of Communism can we expect to stop its influence in this country," he asserted.

Control Half of Globe
Dr. Fort pointed to the Communists' past successes, asserting that "in 40 years they have managed to gain control of half the world and at that rate, in 15 years they'll have the United States, too."

The California educator said that the main feature of the Communists' U.S. program is concentrating on class warfare.

Aggravate Race Problems
He maintained that Communists have been influential in aggravating racial and class problems in the United States.

Student Tickets Ready Thursday for Fry Play

A scintillating satire will be brought to the Brigham Young University stage when the Department of Speech and Dramatic Arts presents "The Lady's Not For Burning" in the Arena Theatre, 250 Arts Building, lower campus, July 7-11.

Student tickets for the play will be available on Thursday. Details on where they may be picked up will be printed in Thursday's Summer Universe.

The production, a verse play by Christopher Fry, will be directed by Dr. Harold I. Hansen, chairman of the department. The play has been very popular since it first opened in New York City nine years ago.

String Quartet Concert Stated For Assembly

Tuesday's regular assembly program will feature a concert by the Paganini Quartet at 9:45 a.m. in the auditorium of the Joseph Smith Building.

The musicians will play Quartet in F major, Opus 59, No. 1, from Beethoven, followed by five modern pieces by von Weber.

The quartet will also present an evening concert Wednesday at 8:15 p.m. in Smith Auditorium, their program for this performance will include two Beethoven quartets: Quartet in A major and Quartet in A minor. The Paganini Quartet will conclude its twelfth summer season at Brigham Young University Thursday morning at the regular assembly when they will appear with Dr. Robert M. Cundick of the BYU music department.

English Setting

Set in a medieval English market town, the play tells the story of a young lady who has been convicted of a witch and is sentenced to be burned. Her accusers say she changed one of the townspeople into a dog. The young lady not only does not want to die, but she is also amazed at the superstitious stupidity of the people.

While she pleads for her life, a recently discharged soldier pleads to be hanged. He is tired of life and claims that he killed the old man she is unjustly accused of changing into a dog. To make a strange situation more awkward, Jennet and Thomas, the accused and the guilty, fall in love.

Arena Theatre New

The Arena Theatre, where the play will be presented, is a fairly recent addition to the BYU Theatre, having had its start less than three years ago.

Called a "theatre in-the-round," the Arena Theatre is constructed to seat about 70 people in about three rows around the action of the play. This gives the theatre-goer the feeling of almost being a part of the action.

The theatre is self-supporting, and reservations can be made by calling the BYU Speech Department. Tickets are \$1.50.

BYU Opens New Adult Center In Los Angeles on Wednesday

David N. Chalk, supervisor of off-campus non-credit classes in Brigham Young University Center for Southern California Extension Services, will open the new BYU Los Angeles Adult Education Center Wednesday, it has been announced by Dr. Harold Glen Clark, dean.

One of Chalk's first assignments will be conducting the Southern California Leadership Week program on the Los Angeles City Junior College campus during the last week of August.

Fourth Center Opened

The Los Angeles center is the fourth to be established by BYU. The others are located at Idaho Falls, Ogden, and Salt Lake City. Purpose of the centers is to bring the University and its influence and facilities closer to the people in areas of large concentration of members of the Church of Jesus Christ of Latter-day Saints.

Services include home study,

audio-visual teaching materials, travel studies, and credit and non-credit courses.

Classes Carry Credit

Credit classes offered at the centers carry regular credit toward the bachelor's degree. Special emphasis is placed on courses dealing with family living, citizenship, church and community leadership.

Last year 11,000 adult students registered for credit courses.

Graduated from BYU

Chalk did his undergraduate and graduate studies at Brigham Young University in educational psychology. He joined the Adult Education staff in January 1958 and has organized many BYU adult education colleges in the western states.

He married Pattie Jeannine Enders and they have two children. Chalk is an active member of the LDS Church and is an officer in the Mountain-Plains Adult Education Association.

Tips on Trips...

Nature Lovers
Anticipate Trek
To Scenic Areaby Phil Herbert
Summer Universe Writer

Nature lovers and people who enjoy riding on good roads through thickly wooded mountains will enjoy the next spot in the summer's itinerary.

The Alpine Loop, so called by people who know its location, is a famous 35-mile drive which circles majestic Mt. Timpanogos. This loop goes through the tops of some of the most colorful mountains and it has a good road which is hard-surfaced and graded to allow easy, comfortable driving.

MANY BEAUTIFUL sights pop up along the way. Wildwood, Provo Canyon, North Fork with its glacial fed streams, Bridal-Veil Falls, Aspen Grove, New Timb Haven ski area, American Fork Canyon and Timpanogos Cave.

Bridal-Veil Falls is so unique that it needs a few more words to better explain it. It has a total drop of 430 feet over a mountain cliff into the bottom of the canyon. Plenty of road-side parking is available along with a marker to fill the traveler in on all details.

THE ALPINE LOOP furnishes an extreme variety of plant life. Bluebells, wild roses and wild honeysuckle are now blooming everywhere. Also, the yellow mountain flowers along with the foliage common to most mountains cover the earth with a carpet of green.

To get to these places all that is needed is finding University Avenue and traveling north until Provo is left behind. Follow Provo Canyon instead of turning west to Orem. From Provo Canyon-Orem intersection travel 7 miles up the canyon and turn left.

THIS IS the Alpine Loop which goes through the head of American Fork Canyon and part of Provo Canyon finally arriving in American Fork.

If you haven't visited Timpanogos Cave near the mouth of American Fork Canyon, make it part of the down hill trip.

FOG ROLLS IN—Royce Johnson, BYU summer student, looks around Aspen Grove, the scene of the annual Timb Hike, and one of the sights on the scenic Alpine Loop.

Provo Youth Program
Receives \$187,000 Grantby Dorothy O. Rea
Summer Universe Writer

The juvenile rehabilitation program spearheaded in Provo by Dr. LaMar Empey, associate professor of sociology at Brigham Young University, has been assured an \$187,000 research grant.

The grant is being made by Ford Foundation following many months of careful study of the Provo program by foundation representatives.

FOR SEVERAL YEARS Dr. Empey has been working closely with Third Juvenile District Court and Monroe J. Paxman, juvenile judge, in an effort to

keep trouble-prone boys from repeated tangles with the law.

Dr. Empey set up a slate of classes for some of the boys who do not respond to regular probation practices. These youths are given special counseling. They participate in athletic contests and handicraft. They engage in open discussion classes. They are given remedial courses in schoolwork.

WHEN PROGRESS is noted to the point that the youth is ready for employment, he is given a special job assignment under supervision of a businessman or tradesman in the community.

The program in Provo has been known as the Citizenship Training Class and was started under direction of the community Youth Council, a volunteer group.

DURING ITS progress it has been observed by juvenile judges and juvenile workers from across the nation.

The funds from Ford Foundation will be administered by BYU and will be used for research to determine (through careful record of individual cases) the worth of the program over a long-time period.

Play Tryouts Set for Tuesday;
Large Cast Needed for Comedy

Tryouts for the play "Lady Precious Stream" will be held Tuesday from 2 to 3 p.m. in 140 Speech Center, according to Dr. Lael J. Woodbury, speech department.

The comedy about a Chinese love story has a large cast and anyone interested should try out regardless of experience. Dr. Woodbury said. The play will be performed July 23, 24 and 25 in Smith Auditorium.

Machine Missing

A new DuKane "Micromatic" projector, model number 14A39-DA, serial number 37298, was removed from the fieldhouse some time during the last two weeks.

The cover is maroon with polished aluminum trim. The machine is designed primarily to show strip film and provide sound through the use of records.

Anyone having information regarding the whereabouts of this machine is invited to contact the Security Office, or the Department of Physical Education-Med, 221 Fieldhouse, ext. 2546.

Workers Needed

People interested in being in assemblies, working on publicity, decorating for dances, or

Theodore Roosevelt
Commission Gives
'Y' Special Award

Brigham Young University has been given special recognition by the Theodore Roosevelt Commission for services to the centennial in 1953, according to Dr. Leona Holbrook, BYU chairman of physical education for women.

The citation was received this week from Herman Hagedorn, director of the centennial commission and Leslie C. Strittgen, director of the Theodore Roosevelt Association.

Dr. Holbrook, who is state chairman for the commission, coordinated the activities for the centennial year.

George Brimhall, Provo High School student, was awarded a scholarship to Brigham Young University as a result of his participation in a state essay contest, a part of the centennial activities.

working in any other type of studentbody position are asked to contact one of the summer school officers or leave a name with Sister Davis in the student coordinator's office, basement, Clark Student Service Center.

Schedules Available

A schedule of summer studentbody activities is available at the check-out stand in the Student Service Center, at the information booths in Smith Bldg. and Smith Family Living Center.

Dancers Meet

Square Dance Club will meet Wednesday at 7:30 p.m. in Smith Family Living Center. All square dancers are invited to attend.

Sis's Hold Meet

All girls interested in working on the Big Sister program this summer should attend a meeting at 4:30 p.m. Tuesday in the Inter-Organization Council office, basement of Clark Student Service Center.

Girls that can't attend should contact Joan Starlin, ext. 24, or leave a note in box 150, D office.

New Regular Students Required
To Take Physical Next Week

All new students and former Brigham Young University students who have been out of school for two years and who are regularly enrolled will be required to take a physical examination at the Student Health Center on July 6 or 7.

SUMMER UNIVERSE

The Summer Universe is published each Tuesday and Thursday during the summer season by the Associated Students of Brigham Young University.
Editor and Business Manager: Sports Editor: Dulita Harvey
Editorial Staff: Lawrence Jones, Bert Wilson
South Alaska Editor: J. Callahan
Curtis Editor: Phil Schert, Dave O. Gies, Dave Thomas, Larry Wood-
Business Staff: Mary Hudson

ACCORDING TO Dr. Paul K. Edmunds, staff member, summer school enrollees who are here just for the summer will be exempted.

Students planning to take the tests must go to the Health Center, one block east of the Smith Building, fill out a physical sheet and make an appointment for the examination prior to July 6.

ON MONDAY, JULY 6, men will take the tests from 8 to 11:30 a.m. and 1 to 3:30 p.m. Women will take their physicals Tuesday, July 7, at the same hours.

Students should have an immunization record with them when making the appointment to help the staff members determine what further shots will be needed.

Hein's Successor Lectures Teachers' Physics Institute

Philip Frank, president of the Unity of Science, will be the visiting lecturer for High School Teachers' Physics Institute, now being conducted at Brigham Young University.

Frank will lecture on the concept of relativity and on his philosophy of physics. He is well known as the successor of Albert Einstein as professor of physics at the University of Prague, author on Einstein, lecturer at Harvard University, and as a philosopher.

SIX-WEEKS institute has 12 high school physics teachers representing all sections of the country, according to Dean Eastmond, chairman of the BYU physics department and chairman of the Institute.

Visiting faculty member, Grant O. Gale, is co-director of the Institute sponsored by the National Science Foundation and BYU.

COURSE is based on a series of films on physics which were presented last year on a television network. Dr. William White, University of California physics professor who directed the series, also will be a lecturer.

Gale, faculty member on the faculty of Grinnell College, Ames, Iowa, helped to organize the material in the film series.

FOR VISITING lecturers Dr. C. J. Overbeck, Eastern University, president of the American Association of Physics Teachers, and Dr. Fletcher, acoustical consultant at BYU and former president of the American Physical

SFLC Lab Provides 'Children at Play'

by Edith Allred
Summer Universe Writer

Conspicuous by their absence on many university campuses are the shouts of children at play, but such is not the case at Brigham Young University.

Students passing to and from their daily classes hear the excited shouts of the youngsters in the nearby Human Development Laboratory at the northeast corner of the Smith Family Living Center.

IT IS OPERATED by the Department of Human Development and Family Relationships under the direction of Dr. Blaine Porter, Director of the Development Laboratory is Mrs. Jean Kunz.

Completely obscured from the view of passers-by, the children actively pursue their many "play" activities behind a high brick wall in the heart of the busy university campus, unaware that students are observing them and conducting research projects.

ACTIVITIES AT the laboratory are many and varied. They include music experiences, storytelling, supervised play, and art instruction.

"Any child is eligible to enter the school if his parents desire to send him," states Dr. Porter. "Sometimes, however, a long waiting period for admission exists for some children, since applicants far exceed the capacity of the school's facilities."

DURING the regular academic year children attend school for a three hour period four days per week each quarter. Tuition fee is \$20, and school ages are 2½ to 5 years.

Summer school students attend on a special basis. Two groups attend four days each week and one group attends daily for a six week period.

Each child is examined daily by a registered nurse. He is also given a snack of fruit or juice and cookies.

PARENTS ARE required to bring their children to school and to call for them. Both parents and student trainees may observe the children at play from observation booths.

THE PURPOSE of the Human Development Laboratory, according to Dr. Porter is "(1) to have children available for observation for students who are study-

ing child growth and development;

(2) To provide experiences with children for students who are preparing to teach young children or work with them in other capacities such as children's hospitals, child medical centers, etc.;

(3) To have children and facilities available for research studies; and (4) to improve family life by providing positive experiences for children in the development of certain skills and personal and social growth, and by helping parents to gain more understanding of their children or of themselves as parents."

DYED RESUED

"How could a date have seemed so important?"

When your mind's not on your driving,

you're dangerous! Your car can't think. That's your department—the driver's. So think about this. When your mind is on anything else but your driving, anything can happen—including an accident! Last year, nearly 37,000 Americans died on our highways. Many might still be alive if they or others had kept their minds on the road. Driving demands your full attention, so stay alert—and stay alive!

Where traffic laws are strictly enforced, deaths go DOWN!

MIGHTY COUGARS?

The Brigham Young University track teams have been the pride of the Skyline Conference for the past six years. Coach Clarence Robison has made his cinder roads the winningest athletes in the entire Rocky Mountain area. There should be nothing but praise for them coming from this writer's Underwood.

Still, as we viewed the AAU Track and Field Meet at Boulder, Colorado, and noted the results of the recent meet the Cougars competed in at Uppsala, Sweden, we wondered, "Could this be the same BYU track team that humiliated other members of the Skyline Conference just one short month ago?"

In fairness to the team, the talent at the AAU meet was outstanding. In fact, several athletes from the United States 1956 Olympic Team competed. The competition was much stronger than that of the NCAA meet held previously at Omaha. Incidentally, the winners of the first two places of each event of the AAU meet will be the representatives of the United States in the forthcoming dual meet to be held with Russia.

How did the mighty Cougars do? Ed Costa, Skyline record holder in the high jump—scratched. Marcus Nielson, Skyline record holder of the pole vault—scratched. Dave Parker, two time record holder of the high hurdles—scratched. Gary Griffith, winner of Skyline mile and two mile this year—didn't run. Glade Nixon, Skyline broad jump champ—failed to place. Dean Lundell, 880 yard run Skyline champ—placed fifth in qualifying heat. Dick Millett, three time record holder of the low hurdles, was running dead last in the semi-finals when he pulled a muscle. Alton Thygeson, 100 yard dash winner—placed fourth in the qualifying heat.

And so it went in Boulder as BYU failed to score a point while New Mexico, runner-up to the Cougars in the conference, tallied eighteen points. They didn't fare very well in the first meet of their European tour either. BYU won only three of nine events against the Swedish team.

It is a pity that Ed Costa was unable to continue in the high jump at Boulder. He conceivably could have taken second to Charlie Dumas. Costa jumped 6-9 in the last two conference meets, and outside of Dumas no one bettered 6-7 at the meet.

Kansas University walked away with the NCAA meet in Omaha, but the Jayhawks were far from close to the southern California striders in the AAU meet.

Ten years ago the fifteen foot pole vault was as elusive as the four minute mile. Yet in Boulder I bet, and lost three candy bars when five men cleared that tremendous height. Later my magnanimous betting partner gave me a chance to get even, and I lost three more candy bars when four of the five cleared 15-3. BYU's Marcus Nielson holds the Skyline record with a 14-4 vault.

Other Skyline record holders showed up well. L. J. Sylvester, probably the greatest weight man to come out of the Rockies, was unable to place in the shot put (Parry O'Brien broke his own AAU record), but he managed a fourth in the discus. Sylvester has sown a new Skyline mark in both of these events for the past three years.

BYU Downed In First Meet

The BYU track team won only three of nine events in last Wednesday's meet with a surprisingly strong team from Uppsala, Sweden.

The Cougars, making the first stop of the European tour encountered strong evening winds and some rather stiff competition from their Swedish hosts.

Alton Thygeson won the 100 meter dash in 10.8 seconds. Larry MacDonald and Dick Millett placed second and third in the same event, both with a time of 10.9.

Marcus Nielson, Skyline pole vault champion, won the pole vault with a soaring 4.30 meters (about 14 ft. 5 in.). The Cougars also won the 1,000 meters relay in a time of 1:58.5. (This race is composed of races of four distances: 100, 200, 300 and 400 meters.)

Ed Costa was second in the high jump with a leap of 1.90 meters; and Dean Lundell was second in the 800 meters run with a time of 1:53.2.

In other events Dave Parker placed fourth in the 110 meter hurdles in 15.2. Dale Long was third in the 400 meter dash with 50.5. Gary Griffith placed fifth in the 1,500 meters run. Glade Nixon leaped 6.76 meters (only 22 ft. 7 in.) in the broad jump.

AND I'M STAN WATTS—Coach Watts talks with three athletes (1969) who have just completed the three-week clinic.

Athletic Clinic Draws 120 Boys

Last Friday, June 26, 120 boys between the ages of 8-14 completed three week courses in basketball and track, conducted by coach Stan Watts and Ben Brooks (in the absence of coach Robison).

The annual athletic clinic is one of the most popular public relations programs offered by the BYU. The young boys profit by learning to associate and cooperate with a group. They develop habits of health and cleanliness and build self confidence in athletics and other abilities. Sportsmanship is also stressed.

The theory behind the program is to teach the boys correct fundamentals in basketball track in order to eliminate takes now, instead of later in high school and college. The program has been widely accepted and encouraged by parents.

CHALLENGE!

Can we meet the new competition?

"In the forty years that have elapsed since its Revolution, Russia has devoted a far larger portion of its gross national product to education than have we. As a result of this intense commitment to education on the part of the Soviets, we as a nation are presented for the first time with a challenge to our leadership in all of the values that we cherish."

"If we rightly interpret the significance of this event, our first reaction of dismay and consternation will herald a reevaluation of ourselves to the best that we have learned from our first century of educational effort. We have a longer and a stronger tradition, greater resources in depth and diversity, a freedom of enterprise, and a talent for innovation which can all combine to move us to redress the present balance and carry us to new heights of educational accomplishment if we display the requisite wisdom and determination."

GAYLORD P. HARNWELL
President, University of Pennsylvania
